

**Dear Carola per ICTP and
TWAS Children,**

... about your child

I hope you and your loved ones are fine and I send you my best regards!

I am the social worker who has been following Shiko Muchoki on her growth path, to ensure she gets the best quality education.

I am glad to write you a brief report on how Shiko Muchoki has been this year thanks to your support. Health wise she has always been fine this year, except for some common seasonal flu easily treatable.

Shiko Muchoki is growing well. She is a shy and humble person and her favorite hobby is dancing.

... thanks to your support...

... we are daily engaged with Shiko Muchoki and through your friendship we discover the true meaning and value of Distance Support, which is a human companionship offered to every boy and girl we meet, the chance to feel loved and become the real protagonist in life.

I take this opportunity to thank you for the support that you sent, together with the family we truly appreciate your love and generosity. With your help we shall continue supporting Shiko Muchoki in her studies, so that she may grow with confidence and life skills!

Warm greetings from Uganda,
Nassali Ritah, social worker

... your child's school

Shiko Muchoki scholastically, is doing fine: she is now attending the first year of secondary school at St. Peters Naalya and her performance this year has been very good.

We are proud to inform you that Shiko Muchoki is sociable and has a very good relationship with teachers and schoolmates.

This year she joined with success the Environmental Club, a big achievement in our schools, which makes her also a role model for other students.

... your child's family

At home, Shiko Muchoki gets along well with all and loves being with Abalo Christine the mother with whom has a special relationship, and her favorite activity is cooking. The family's condition is fair and gradually improving. They currently are 3 people in a one-roomed rented house.

Abalo Christine, is now working as receptionist in the local hospital. The income is not yet enough to meet all the family's basic needs, but everyone is doing their best as possible.

Thanks to your support, this year we were able to involve the family in various activities to improve their socio-economic situation, including education support, school visits, Village Savings and Loans Association.

Merry Christmas & Happy New Year!
