## CLIMATE CHANGE AND PLANETARY HEALTH

Session organized by **The World Academy Of Sciences for the advancement of science in developing countries (TWAS)** and **Cinzia Vitale Onlus** within the **International Symposium GeoAdriatico**

**LUČKA KAJFEŽ  
BOGATAJ**  
University of Ljubljana;  
Nobel Peace Prize,  
2007 winner (with IPCC)

**PAOLO FORNASIERO**  
University of Trieste

**FLORENCE COLLEONI**  
Italian National Institute  
of Oceanography and  
Applied Geophysics  
(OGS)

**LUCILLA IACUMIN**  
University of Udine

**MASSIMILIANO  
FABIAN**  
Past president,  
International Coffee  
Organization (ICO)

**MODERATOR:**  
Max Paoli, TWAS Programme Coordinator

The session will explore the interconnections between climate change, water resources, food security, energy consumption, and the overall health of our planet. Experts from various fields will provide a multidisciplinary perspective on how we can collectively work to solve the climate crisis.
